Problem-Solving Mealtime Participation Needs within a MTSS (.6 CEUs)

Description:

Student needs for mealtime participation support can vary in type, resources required, intensity, and duration of supports and services. Meeting a student's unique mealtime participation needs is a complex process often requiring specialized inter-professional evaluation, intervention, and progress monitoring. Using MTSS as an organizing framework, LEAs and charter schools can problem solve mealtime participation issues while adhering to multiple requirements under USDA, IDEA, Section 504, state law, and local policies. This session will investigate best practices, relevant statute and policies, and existing state and local resources for supporting students experiencing difficulty with mealtime participation.

Instructor: Lauren Holahan, Perry Flynn, PMA Representative, School Nutrition, School Health Nurse Consultant and 504 Representatives
